PROFESSIONAL SUMMARY

I am a **Technical Lead & Solution Architect** with over **10+ years of experience** designing and delivering scalable, high-performance applications across domains such as Finance, ERP, POS, SaaS, and habit-tracking solutions.

I have strong hands-on expertise in **frontend and backend development** using **Angular, Node.js, TypeScript, Express.js, HTML, CSS, JavaScript, jQuery, .NET Core, C#, MVC, REST APIs, MongoDB, and PostgreSQL**. My cloud experience includes **AWS** (EC2, RDS, SQS, S3, CI/CD pipelines, Serverless Lambda, CloudWatch).

My strengths include **solution architecture, serverless applications, event-driven systems, and RESTful APIs**. I focus on optimizing performance, improving reliability, and applying best practices. I work closely with stakeholders to capture requirements and translate them into **clear data and process models** that bridge business and technical needs.

I bring proven experience in **project planning, resource allocation, and risk management**, following **Agile/Scrum methodologies** to deliver quality results. I take ownership, adapt quickly to change, and perform well under tight deadlines. Always eager to **learn and apply new technologies**, I am ready to take on **additional responsibilities** to meet business goals.

I excel in preparing **technical documentation** and building effective APIs, and I am known for my **strong communication skills** and ability to collaborate with people at all levels.
